## The Facet LIS Textbook Collection

By Alire Camila A.

Multiple copy pack. Book Condition: New. Not Signed;  
 Description: The Facet LIS Textbook Collection contains ten core textbooks for students studying library and information science. The books included in the Collection are: Introduction to Information Science DAVID BAWDEN and LYN ROBINSON ".an admirable and highly readable introductory source. Accessible, comprehensive, far-reaching and offering an impressive overview of the relevant literature, Introduction to Information Science is an excellent resource that will likely serve as the standard text for the foreseeable future." - Partnership Research Methods in Information, 2nd edition ALISON JANE PICKARD "A strength of the work is its attempt to cover the entire spectrum of research relevant to the LIS community, and Pickard does so very competently .this work has a clear role in guiding students and practitioners through the research process." - Online Information Review Exploring Digital Libraries Foundations, practice, prospects KAREN CALHOUN "The students studying Digital Libraries and Information Services Master's programme at our University are the first to whom I am recommending this book. I would suggest it also to other library and information science programmes as a course book - it addresses most of the topics related to digital libraries as collections and services." - Information...
