Treecology: 30 Activities and Observations for Exploring the World of Trees and Forests

By Monica Russo

Chicago Review Press, United States, 2016. Paperback. Book Condition: New. 279 x 215 mm. Language: English . Brand New Book. An engaging introduction to the ecology of trees and forests, Treecology contains over 100 beautiful color images of trees, leaves, blooms, forest wildlife, and more. Kids learn about the interwoven lives of plants and animals making up the forest community: the food, nesting sites, and safe roosting and resting places that trees and forests provide to wildlife. This useful book also includes "street trees" commonly seen along city streets and parks, allowing any child to learn about their local tree communities. Through 30 simple and fun activities, young readers learn how to observe the diversity of leaf shapes, the textures of tree bark, and evidence of forest creatures. The activities promote the development of science, writing, math, arts and crafts, and observation skills. Also included are a glossary and list of teacher topics for classroom use.

Reviews

This book is definitely worth acquiring. I have gone through and so I am certain that I will likely to read through again again in the future. It's been printed in an exceptionally basic way in fact it is only after I finished reading this publication in which actually altered me, change the way in my opinion.

-- Andres Bashirian

Comprehensive guide for publication fanatics. This really is for all who state there had not been a well worth reading through. I discovered this ebook from my dad and I encouraged this book to find out.
