Bailey or AAB to her followers, was an influential writer and theosophist in what she termed Ageless Wisdom. This included occult teachings, esoteric psychology and healing, astrological and other philosophic and religious themes. Alice Bailey was born in Manchester, England. She moved to the United States in 1907, where she spent most of her life as a writer and teacher. In Baileys writings, evolution is defined as the process of bringing the lower nature, that is ones physical, emotional, and mental selves, into integration and alignment with the will of the soul, or higher nature. It is this transformation that leads to right human relations and spiritual revelation or awakening. Discrete steps on the spiritual path are called initiations, which is to say that the evolving consciousness is entering into new and wider fields of awareness, relationships, responsibilities, and power. This work explains her philosophy at work. A classic text. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
