Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Hora Philologica: Or Conjectures on the Structure of the Greek Language In the only place where a writer is allowed to speak of himself, I may, perhaps, be permitted to apologize for any errors in the following little Essay, first, by candidly pleading very great ignorance of the critical labours of others; and secondly, by explaining that the observations themselves were made solely for my own amusement, during a late tour on the continent, when I could obtain no access to books; and possessed no other means of ascertaining their accuracy, but conversation with a most valued and gifted friend, to whose talents and researches on similar subjects I may attribute either directly, or indirectly, anything not altogether valueless in the conjectures themselves. As I am not likely to possess much leisure for prosecuting philological inquiries, and have found even the present sketch, with all its manifold imperfections, useful on more than one occasion in encouraging a fondness for critical studies, I have not scrupled, though with great diffidence of its value, to offer it to any student who may be inclined to exercise his own mind in refuting or confirming the hypotheses of others.
