By Harvey Willard Miller

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Descriptive Geometry Believing that no one study plays a larger part than Descriptive Geometry in the shaping of the students mind into the analytic thinking machine, necessary to success in any engineering profession, the author has outlined and written the text with this as its chief aim. To accomplish such an end, the following fixed arrangement has been used in the case of each problem: (1) Statement of given data and requirements; (2) Discussion; (3) Analysis or brief statement of general order of procedure in solution; (4) Construction of some general case of the problem. The author, after graduating from college, learned the trade of boilermaking. Before the expiration of two years at his work, from observation and experience, the conclusion became reasonable to him that three-fourths of the errors in construction were due, either to the inability of the foreman to give his orders so clearly as to admit of no misinterpretation, or to the general inability of workmen to understand an order when given distinctly. Students entering college are notoriously deficient in the...
