Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This monograph comes at a time of promise for greater economic integration between the United States and Latin America, but also one of profound concern about the deteriorating security situation in several countries in the region. Importantly, the benefits of stability, economic growth, and democracy depend on effective national sovereignty and security. These realities are gaining credence as we grow to understand that Colombia is a paradigm of the failing state, and that has enormous implications for the well-being of the Western Hemisphere. Yet, no consensus on the threat and how to deal with it has emerged. As a consequence, hemispheric security cooperation is at an impasse. In this context, Dr. Max Manwaring identifies the political-strategic challenge of effective sovereignty and security, with a focus on nontraditional threats. He recommends that leaders rethink the problem of nontraditional threats and develop the conceptual and strategic political multilateral responses.
