Pub Date :2008-05-02 Pages: 135 Publisher: China Light Industry Press title: polymer modified (Second Edition) (polymer materials and engineering textbook series) Original Price: 20.00 yuan Author: Kingdom . Xiufen ed Publisher: China Light Industry Press Publication Date :2008-5-2ISBN: 9787501963621 Number of words: 213000 Page: 135 Edition: 2 Binding: Paperback: 16 Editor's Summary polymer modified diverse species. including modification. filling modification. composite materials. chemical modification. surface modification. The past. of the above modification methods were studied. and were published monograph. However. with the extensive research carried modification methods between the various categories of interrelated relationship of mutual relying increasingly apparent. This mutual association is reflected not only in the theoretical category. but also in the application areas. Therefore. it is necessary to write a comprehensive introduction to the writings of the various methods of polymer modified. This book not only can be used as materials science undergraduate. graduate teaching materials. and with reference to the value of the engineering and technical personnel involved in this field. This book is a polymer modified basic books. can not cover everything. In writing. based on polymer blend modified as the mainstay of modified method. In recent years. new research results on the polymerization modified endless. The book focus introduces the basic concepts of polymer modified. the basic law and the main application system based on the also appropriate to introduce some new progress in this area. On the theoretical side. the book also income some new developments. such as non-elastomer toughening theory. Contents Chapter 1 Introduction 1.1 polymer modified 1.1.1 Blending Modification 1.1.2 filled with modified fiber reinforced composites 1.1.3 chemically modified 1.1.4 Surface Modification 1.2 polymer modified A Brief Introduction reference...
