

## Designing Digital Computer Systems with Verilog (Hardback)

By David J. Lilja, Sachin S. Sapatnekar

CAMBRIDGE UNIVERSITY PRESS, United Kingdom, 2011.  
Hardback. Book Condition: New. 246 x 174 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This book serves both as an introduction to computer architecture and as a guide to using a hardware description language (HDL) to design, model and simulate real digital systems. The book starts with an introduction to Verilog - the HDL chosen for the book since it is widely used in industry and straightforward to learn. Next, the instruction set architecture (ISA) for the simple VeSPA (Very Small Processor Architecture) processor is defined - this is a real working device that has been built and tested at the University of Minnesota by the authors. The VeSPA ISA is used throughout the remainder of the book to demonstrate how behavioural and structural models can be developed and intermingled in Verilog. Although Verilog is used throughout, the lessons learned will be equally applicable to other HDLs. Written for senior and graduate students, this book is also an ideal introduction to Verilog for practising engineers.

### Reviews

*An incredibly amazing ebook with perfect and lucid answers. It is written in basic terms and never difficult to understand. It has been written in an exceptionally basic way and it is only right after I finished reading this ebook in which it in fact modified me, affected the way I really believe.*

-- **Beverly Hoppe**

*Extremely helpful for all class of individuals. Better than never, though I am quite late in starting reading this one. I realized this publication from my mom and dad suggested this ebook to discover.*

-- **Adela Schroeder II**
